

TRITON AND TRITON TOWER HARNESS

TRITON HARNESS CONFIGURATIONS

TRITON HARNESS

- The **NEW TRITON** harness is an innovative design featuring superior comfort, versatility and durability. The TRITON harness offers:
- extremely lightweight and durable design that reduces worker fatigue while extending the products life.
 - a four-motion leg pivot point. The improved design increases comfort during climbing, suspension and work positioning.
 - a breathable waist pad providing the highest level of comfort and functionality.
 - easy to use webbing adjusters: Securing the harness without slippage. Excess webbing is no longer an issue with the elastic keeper system.
 - a removable Suspension Seat (TRITON TOWER): Comfortable padding allow for long term suspension and rigid aluminum seat board providing support and stability. Durable steel positioning rings.
 - a removable waist belt to secure tool pouches and holders. Velcro straps secure the belt in place, preventing tool pouches from coming loose.
 - optional shoulder and leg pads that can be added for additional comfort while climbing or hanging in the harness.
 - Aluminum & Stainless Steel hardware: Lightweight and durable hardware reduces worker fatigue and increases product life.
