## Data sheet

### INCEPTOR GRX REF

The INCEPTOR GRX redefines safety. The specially designed EPS core and the helmet shell made of PC/ABS absorb particularly high impact energy - in the crown area as well as laterally. The largest possible ventilation holes and the ergonomic EPS thorax ensure outstanding wearing comfort. The neck strap of the INCEPTOR GRX allows continuous width adjustment from 54 to 63 cm. The chin strap is equipped with a Fidlock buckle: the ergonomic magnetic closure is easy to open and close, as it engages securely and automatically. The Gear Rack, several helmet clips and Euroslots allow accessories to be attached. All internal padding and the chin strap are replaceable and can be replaced or exchanged.

- Largest possible ventilation holes
- Equipped with chin strap CHIN-X 250 for use according to EN 397 EN 397:2012+A1:2012
